Blue&Gold Transit Collective

Project Sponsor: Erik Nielsen

Faculty Mentor: Smirthya Iyer

Team Members: Brenden Matteson, Maddux Houseman, Adolfo Lopez Villanueva

The purpose of this document is to introduce the members of our team. The following pages highlight some of the training, skills, and experience of each team member.

Team Inventory
September 15, 2026

Name: Brenden Matteson

Major: Computer Science

Hometown: Goodyear, AZ

Email: bmm598@nau.edu

Education:

- Estrella Foothills High School, 4.0 GPA
- Northern Arizona University
 - Relevant Coursework:
 - CS 312 – Web Programming II
 - CS 345 – Database Systems
 - CS 386 – Software Engineering

Skills:

- Web Development
 - I have experience building full-stack web programming projects using RESTful web services in Node.js during web programming courses.
- Databases & Data Management
 - I have experience using PostgreSQL and MySQL database management systems using relational models, building schemas, and SQL querying from previous database management and web programming courses.
- Multi-Language Integration
 - Built a program in coursework using three different languages together to create a cohesive system.
- Version Control
 - Used GitHub throughout web programming projects to manage source code and collaborate on team projects.

Other interests:

I enjoy designing and printing things on my 3D printer. I like playing volleyball, competitively, and for fun. I think troubleshooting can be extremely rewarding.

Name: Maddux Houseman

Major: Computer Science

Hometown: Mesa, AZ

Email: mjh762@nau.edu

Education:

- ASU Preparatory Academy Polytechnic Campus, 4.0 GPA
- Northern Arizona University
 - Relevant Coursework:
 - CS 312 – Web Programming I&II
 - CS 345 – Database Systems
 - CS 386 – Software Engineering

Skills:

- Web Development
 - I have experience with creating websites with React, HTML, and Javascript. I have created a website for an elementary school to track reading minutes for each student with a teacher dashboard side for ease of use.
- Databases & Data Management
 - I have experience integrating a database into a website in my previously mentioned website for the school project. I also have experience working with MYSQL and working with and creating relational models
- Version Control
 - Using GitHub to manage code from multiple people and work in a team effectively.

Other interests:

Some of my other interests include Magic The Gathering, Warhammer, and Video Games. I spend a lot of my free time playing many kinds of games with my friends online and in person.

Name: Adolfo Lopez Villanueva

Major: Computer Science

Hometown: Phoenix, AZ

Email: al3755@nau.edu

Education:

- Metro Tech High School, 3.75 GPA
- Northern Arizona University
 - Relevant Coursework
 - CS 312 – Web Programming II
 - CS 386 – Software Engineering
 - CS 377 – Mobile Application Development

Skills:

- Web Development
 - I have experience with web development through different courses, using Node.js and HTML coding to create full web pages.
- Mobile Application Development
 - I develop mobile apps skill within CS377, using Android Studios in Kotlin to create full apps like a Spotify Stats app.
- Version Control
 - I have used GitHub in my web programming and app development courses to manage the code and collaborate with my team
- Database Management
 - I have experience with MySQL database management systems using relational models, building schemas, and SQL querying from previous database management courses.

Other Interest:

I enjoy video games and card games in my free time. I also dance, doing K-pop dances covers with KLCC (Korean Language and Culture Club) and Altitude7 at NAU.
